Notes

1. The Grave Register records that Mr Oldershaw installed kerbs on the grave on 6th December 1890. There is no visible evidence of these kerbs on site now.
2. The name of the installer is usually a monumental mason rather the grave owner.
3. Information shown in [square brackets] in the transcripts does not appear in the original Registers, but has been added to the transcripts for clarity.
4. The names of Officiating Ministers and Persons making the Entries of Burial may not be correct, as some signatures are difficult to decipher.
